

HIGH-PERFORMANCE TRAINING FUEL

**CARBION<sup>+</sup>**™ is a clean, refreshing and very easy-to-mix drink that gives you rapid energy and powers faster recovery from your hardest training sessions. Regular sugary drinks can spike blood sugar levels and result in a performance-killing, hypoglycemic crash.

TRAIN HARDER + RECOVER FASTER + GET RESULTS!

**REFRESH** CARBION<sup>+</sup> is formulated with a highly soluble carbohydrate blend that mixes easily and results in a clear, refreshing, incredibly delicious drink that will crush your thirst with Zero Bloating. **Cyclo-D** is an engineered carb that is designed to be essentially tasteless and highly soluble by breaking down long chains into highly branched cyclic chains and our **PER4ORM** maltodextrin blend is added to make it even more soluble.

**HYDRATE** You need to provide your body with an adequate supply of electrolytes to maintain specific bodily functions, so you can perform at your peak. CARBION<sup>+</sup> contains a perfectly balanced blend of all 4 key electrolytes, Sodium, Potassium, Magnesium and Calcium to keep you hydrated during intense exercise. These 4 key electrolytes have been optimized for improved absorption and improved taste by utilizing bicarbonate and citrate forms in addition to the more typical chloride forms.

**PERFORM** In the end, it's all about performance. You take supplements to improve performance and that's what CARBION<sup>+</sup> will do! CARBION<sup>+</sup> is formulated with Zero Sugar, our Phased Delivery Energy Blend was designed to provide fuel for your entire workout without the energy crash associated with sugar based sports drinks. Tests performed with high performance athletes during training has confirmed up to 50% improvement in stamina as well as a reduced perception of fatigue.

**RECOVER** A commonly overlooked fact is that carbohydrates hold a high importance in the recovery process and are essential for any hard working athlete. During intense exercise, your muscles use glucose and glycogen for energy. But the body can only produce so much, once depleted the body creates cortisol which eats up muscle tissue for protein and converts it into glucose. The net result is a loss of muscle tissue. Post workout supplementation with CARBION<sup>+</sup> can help prevent this.

**DIRECTIONS:** Mix ½ Scoop CARBION<sup>+</sup> with 355 mL of cold water and you're ready to go. Additional water can be added if desired. / **Mode d'emploi:** Mélangez ½ cuillère CARBION<sup>+</sup> avec 355 mL d'eau froide et vous êtes prêt à partir. De l'eau supplémentaire peut être ajoutée si désiré.

**WARNINGS:** This product is not recommended for persons under 18 years of age. Do not use if you are pregnant or breastfeeding. Ensure to drink enough fluid before, during, and after exercise. Consult your health care practitioner prior to use if you have any pre-existing medical conditions. Consult a health care practitioner prior to use if you have diabetes or impaired glucose tolerance; liver disorders, intestinal disorders or symptoms such as abdominal pain, nausea, vomiting or fever, or are taking any medication or natural products/supplements. Do not use this product with other potassium containing supplements or with potassium containing salt substitutes. Gastrointestinal upsets such as diarrhea have been known to occur, in which case discontinue use. If you experience symptoms of hypoglycemia including feelings of anxiety, dizziness, tremor, sweating, nausea or headache, discontinue use and consult a health care practitioner. Discontinue use if you experience any adverse reaction and consult your health care practitioner. Store in a cool, dry location away from direct sunlight. Do not use if inner seal is broken. **ALLERGEN WARNING:** Produced in a facility that also handles Milk, Soy, Egg, Peanut, Tree Nuts, Sesame, Fish, Crustacean and Shellfish products.

**Avertissements:** Ce produit est déconseillé aux personnes de moins de 18 ans. Ne pas utiliser si vous êtes enceinte ou si vous allaitez. Assurez-vous de boire suffisamment de liquide avant, pendant et après l'exercice. Consultez votre praticien de soins de santé avant d'en faire l'usage si vous souffrez de troubles médicaux préexistants. Consultez un praticien de soins de santé avant d'en faire l'usage si vous souffrez de diabète ou d'une intolérance au glucose; troubles hépatiques, troubles intestinaux ou symptômes tels que douleurs abdominales, nausées, vomissements ou fièvre, ou si vous prenez des médicaments ou des produits/-suppléments naturels. N'utilisez pas ce produit avec d'autres suppléments contenant du potassium ou avec des substituts de sel contenant du potassium. Des troubles gastro-intestinaux tels que la diarrhée sont connus, auquel cas cesser l'utilisation. Si vous ressentez des symptômes d'hypoglycémie, notamment des sentiments d'anxiété, des étourdissements, des tremblements, de la transpiration, des nausées ou des maux de tête, cessez l'utilisation et consultez un professionnel de la santé. Cesser l'utilisation si vous ressentez des effets indésirables et consultez votre professionnel de la santé. Conserver dans un endroit frais et sec à l'abri de la lumière directe du soleil. Ne pas utiliser si le sceau intérieur est brisé. **Allergènes avertissement:** Produit dans une installation qui traite également des produits du lait, soja, œuf, arachide, noix d'arbre, sésame, poisson, crustacés et fruits de mer.
