

ISO FLEX®: TRULY SUPERIOR PROTEIN

ISO FLEX® has taken WPI technology to a whole new level of measurable superiority. If you're looking for the highest quality, most premium and fastest absorbing protein, then look no further than ISO FLEX®; a Truly Superior Whey Protein Isolate.

In just about every way a protein can be, ISO FLEX® is Truly Superior.*

WHAT DOES THIS MEAN TO YOU?

- A 100% Whey Protein Isolate Source
- Native & Intact, Non-Denatured Whey Protein Fractions
- Laboratory-Tested, Certified & Approved

27g Pure Protein In Every Serving

HYBRID RATIO ISOLATE (HRI)

HRI FILTRATION TECHNOLOGY

ISO FLEX® employs a unique protein extraction technology called HRI. A hybrid of two isolate purification technologies incorporated at a specific ratio to produce a truly superior ultra-pure Whey Protein Isolate. Cutting-Edge Hybrid-Ratio Ion-Filtration (HRI) Technology allows ISO FLEX to retain an exceptionally high protein yield while maintaining enhanced bioactive whey fractions (chart on right). ISO FLEX contains absolutely NO Whey Concentrate. Concentrates have higher levels of fat and sugars with a lower percentage of protein and lower bioavailability than Isolates. While other brands use Concentrates, ISO FLEX users know that Isolates have a superior protein percentage and won't settle for non-isolate blends.
